

6th April 2022

Dear Parent/Carer,

Educake

Your child's science teacher has recently given them a username and password for an online homework and revision platform called **Educake**. The platform can be accessed on a PC, tablet or smartphone by going to www.educake.co.uk, or using the app.

Your child will be set a quiz in Educake **every 2 weeks**, however extra quizzes can be set by your child at home for extra practice. Every question is auto-marked, and they will receive instant feedback.

When your child first uses Educake there are a couple of tips we would like them to remember.

- Small spelling mistakes are okay. For most questions in Educake, answers can have up to two letters wrong and it will still be accepted.
- Don't answer in complete sentences. Educake questions require mostly one-word answers. This is how we ensure the system marks the answer correctly.
- Quizzes can be attempted multiple times if required to help raise confidence.

A recent study was carried out at a school that uses Educake and found that students who answered more than 500 questions in Educake achieved higher GCSE scores than expected. As a department we are confident that Educake will help us ensure gaps in learning are identified and interventions put in place to support your child to aspire and achieve.

The next page of this letter will briefly show you how Educake works. If you have any questions, you can always talk to your child's teacher about Educake via our Edulink app, or you can email Educake at support@educake.co.uk. Please follow the link <https://help.educake.co.uk/en/articles/5954615-how-do-i-log-in-using-a-google-account> for information on how to create a Google login.

Thank you for your support.

Yours faithfully,

Miss G Shaw
Key Stage 3 Lead for Science

When you use Educake as a student, you see this page first:

When your teacher has set you a test, it'll be here. Click on it to take it. Your progress is always saved, so you can return to it later.
